

Key features of IDEC terminal blocks included:

- Molded from UL94-V0 material with excellent flame- and shock-resistance
- Mount on a standard 35mm DIN rail
- Marking strips and dust covers are available
- Control circuit, power circuits, and fuse block, are available
- Sectional or one-piece construction

Specifications	Insulation Voltage	600V
	Dielectric Strength	2,500V AC, 1 minute
	Insulation Resistance	100MΩ minimum
	Operating Temperature	-25 to +55°C
	Operating Humidity	45 to 85% RH

Selection Guides

Description	Appearance	Page	Current
Modular DIN Rail Terminal Blocks		P-3	10A to 150A
Modular DIN Rail Fuse Holders		P-5	10A maximum
One-Piece DIN Rail Terminal Blocks		P-9	15A to 40A
One-Piece Power Blocks (DIN rail and surface mount)		P-7	200A to 350A
One-Piece DIN Rail Fuse Holders		P-10	10A maximum
DIN Rail Break-Out Modules		P-19	1A maximum
